OBJECTIVE

Seeking a challenging position as WebSphere Portal Developer with a growth-oriented organization where my skills and experience will be utilized to their full potential.

SUMMARY

- *About 5+ year of IT experience as **Java/J2ee** and **C++** Developer.*
- Expertise in developing web based applications using Java/J2EE.
- Sound knowledge of **J2EE patterns** and **n-tier architecture**.
- Expertise in **Struts Framework**.
- Profound experience in J2EE technologies (**Servlets, JSP, JSF, JDBC, EJB** etc.).
- Skilled in using web services to allow interaction between different web-applications.
- Expertise in working with **Eclipse** and **WebSphere**.
- Strong knowledge in designing **UML** Diagrams.
- Experience in **JUnit** testing and writing Validation Rules.
- Expertise in scripting languages like **JavaScript**, HTML, DHTML, **XML** and Velocity.
- Experience in Object Oriented Analysis.
- Expertise in RDBMS Skills in **Oracle9i/8.i, PostgreSQL** and **MS SQL Server**.
- Familiar with Configuration Management using CVS.
- Experience in **developing enterprise Java applications** for **Insurance** and **E-commerce segments**.
- Ability to define and implement **complex algorithms** all while applying sound software design principles.
- Proven expertise in Software Development Life Cycle.
- Ability to handle multiple tasks in a team or independently within a specified time.
- Strong team player with outstanding planning and good communications skills.

TECHNICAL SKILLS

Operating Systems Windows NT4.0MS-DOS, Windows 2000, **Windows XP, UNIX**

Languages **JAVA (JDK 1.4)**, J2EE,C, C++, COBOL, VB, VC++

Methodologies OOAD using UML, RUP, **Extreme Programming (XP)**.

Application/Web Server **IBM WebSphere 6.x/5.x/4.x**.

Scripting Java Script, HTML, DHTML, XHTML, **XML**, AJAX, **CSS** and Velocity.

Web Technologies **J2EE, JSP, JSTL, HTML, DHTML**

Middleware **Servlets, EJB 2.0**, Hibernate, ActiveX.

IDE **WebSphere, Eclipse**, Visual Studio 6.0, Cygwin, Xubuntu.

Servers **WPS 6.0/WPS 5.1, WebSphere Application Server 6.0/5.0/4.0/3.5, JBoss**

Databases **DB2, Oracle 9i/8i/7.3, PostgreSQL**, Toad

Configuration Mgmt CVS, SVN

Networking TCP/IP, UDP, HTTP

Design Tools. Rational Rose Enterprise Edition – 2000, UML, MS Visio, Selenium.

Other Software Skills Macromedia Flash, Macromedia Director, SwishV6.0

EDUCATION

- BE (Computer Engineering)

TRAINING

- Operating Portal Clusters based on Portal 5.1.
- WebSphere Process Server , Process development and deployment through WebSphere Integration Developer.
- Human task implementation Integrating tasks through portal interface.
- Implementing Portal Collaboration with Lotus Collaboration server version 7.1.
- Portal 6 two-day VLC workshop from IBM.
- WebSphere Commerce 6 getting Started.
- Configuring BPC and BPE with portal 6.
- Unleashing RAD 6 for Development.
- Secured 3rd position at **Integration Developer Contest** held by **IBM (VLC Virtual**

Learning Center).

WORK EXPERIENCE

WebSpherePortalGuru Oct '03 – Present

Client : Carquest (Websphere Portal)

- CarQuest WCM site (wcm 2.5 – wcm 2.6).
- CarQuest Portalization of WCM Site (IBM Portal 5.1 – 6.0).
- CarQuest Technical Institute JSR-168 complaint portlets based on JSF and Hibernate (Content multilingual English, Spanish, French). Back office portlet for managing courses and schedules that will be available through search portlet.
- London Leasing JSR-168 complaint portlets based on JSF and Hibernate (Content multilingual English, Spanish, French). Back office portlet for listing the posted applications and downloading them in Spread Sheet format.
- Personalization of Pages for Specific users on CarQuest.
- Active Navigation within WCM from content to Portal Page, Incorporating custom Portlets within the Content, Syndication of Content from Development to Staging.

Client : Synovate, UK (Websphere Portal)

- Created Virtual Portal
- Created Customized Portal Theme & Skin according to customer Mockup and deployed on portal server
- Installed Tivoli Directory and configured with WPS
- Configuring and Managing Authorization and Portal Access Control
- Configured Document Manager and Enabled workflow and versioning
- Built a document collection and search index and configured a document search portlet to use the index
- Integration of Portal Intranet site with Lotus Domino, Mail and Same time

Client : Dunn Solution (Websphere Portal)

- Created a Portal site using WP5.1
- Configured the Portal Cluster Environment 3

Client : Hattonpoint (Websphere Portal)

- Created a Portal site using WP5.1
- Migrated the site to Oracle10i
- Integretd the site with Lotus Mail

Rectennis, May '02 – Sep'03

WebSphere Application Developer

Struts, MVC, J2EE, Servlet, Java Server Pages (JSP), Custom Tag Libraries, Bean's Form,

Java, XML, UDB DB2, Design Patterns, WebSphere Application Server v5.0, WebSphere Studio

Application Developer v5.1 (WSAD), CVS, Profiling, Ant, UML

Lead developer for large scale J2EE project. I worked with **Struts** as the Web-container framework. Used Servlet,

WebSphere, JSPs, Custom Tags, XML, and XSL, Tiles framework, Struts, Beans form and UML.

As Java developer, I

assisted in evaluating current in-house MVC framework and providing examples and feedback on how to migrate to a

standardized Struts environment.

Responsible for **object-orientated analysis/object-orientated design** of current systems.

Use **UML** to develop requirements and architect a solution. Lead new design and architecture efforts for

internationalization of the U.S. application for future flexibility and expandability.

Work with Struts front-end utilizing the tiles framework to implement the GUI interface.

The **Struts framework** was also augmented using both the validator and tiles add-on components. Also

performed the Struts version analysis.

Developed Struts examples and proof of concepts that were used by the developers to learn how to use the

Struts framework.

Supported integration efforts between the Struts Action classes and the Beans form layer.

Responsible for **WebSphere development** and runtime subject matter expert.

Updated the **detailed design documentation** that replaced the in house framework with Struts and provided

analysis on the use of Struts in the GUI coding standards.
